6. The Club Championship, for Adult and Young Adult, will be awarded to the individual who accumulates the greatest number of points from the sum of the three scores described below. The three scores are as follows:
 - a. First score will consist of the raw score (without handicap) from either the Blue Face or Multi-color (Vegas Face) leagues for that calendar year. You may submit both scores but only one will count toward the final tally. 1800 points possible.
 - b. Second score will be taken from one of the 3-D tournaments sponsored by KBH Archers for that calendar year. A contestant may enter any or all of the scores throughout the season but only one score will count toward the final tally. 1000 points possible.
 - (1). Scoring will be calculated on a percentage basis. The total possible score will be divided into the contestant's posted score. The percentage will then be converted to points.
Example: 500 points possible
300 posted score
300 divided by 500 = .60 = 60% = 600 points
 - c. Third and final score will be the score posted from the Club Tournament consisting of an NFAA Animal round. The Club Tournament and Qualifier schedule will be submitted by the Tournament Director and approved by the Board of Directors no later than 1 April each year. 560 points possible.

All requests must be made prior to the drawing of groups and there shall be no more than three (3) family members per shoot group. If possible, no more than one (1) cub will be assigned to any group.
